

EUROPHOTON 2022

Friday 02 September 2022

SSL 6 Piskarskas memorial - Auditorium (08:15-09:30)

-Conveners: **Valdas Pasiskevicius**

time	[id] title	presenter
08:15	[121] Spatially-multiplexed tunable dual-comb optical parametric oscillator at 250 MHz	BAUER, Carolin P.
08:30	[122] Inline Amplification of Mid-Infrared Intrapulse Difference Frequency Generation	BOURNET, Quentin
08:45	[123] High repetition rate, low noise and wavelength stable OPCPA laser system with highly efficient broadly tunable UV conversion for FEL seeding	LANG, Tino
09:00	[124] Visible, femtosecond, high power, ultra-broadband noncollinear optical parametric oscillator (VIS-NOPO)	MEVERT, Robin
09:15	[125] Multi- μ J 12 μ m Femtosecond GaSe-based OPCPA at 1 kHz Repetition Rate	FUERTJES, Pia
