

European Conference on Trapped Ions (ECTI)

7th European Conference on Trapped Ions

Monday 25 September 2023 - Friday 29 September 2023

Schloss Bückeburg

Scientific Programme

The conference will bring together the international ion-trapping community and will cover the whole breadth of topics of the community, including quantum computing, simulations and sensing, precision measurements and optical clocks, crystals and dynamics, molecules and more.

Quantum Computing

Quantum Simulations

Precision Measurements

Optical Clocks

Crystals and Dynamics

Molecular Ions

Hot Topics

Novel Approaches
